

MORAL INSTAURATION

“Striving for Excellence” is the motto of our School. We have set before us the goal of achieving perfection in every field. The roots of culture lie in humanising education, where everyone feels for others, has genuine sympathy and may rise above caste, creed and other parochial tendencies. The student must feel that he/she is human being first and anything else afterwards.

SCHOOL TRANSPORT

The School owns CNG buses. It has also to depend on private operators partially. Bus service provided by them may develop snags occasionally and the parents should not think kindly of the School for such interruptions. In case a student is delayed in reaching home the parents should not get unduly panick but should immediately inform the School reception because the School takes care of the student till they reach home. No effort for the safety of the student is spared but the School should not be held responsible for any road accident in which the bus may be involved and also for any other unforeseen circumstances. The responsibility of boarding the child into the bus and receiving him/her after the bus drops him/her will be that of the guardians. For withdrawal of transport facility one month's notice is a must.

LIBRARY-CUM-READING ROOM

A well stocked, well planned and well equipped library is one of the distinctive features of the School. The library has a collection of carefully selected books suited to the needs of children. At various stages they are encouraged to read at least six books in an academic year. The reading room gets a number of useful journals and newspapers suitable for students of various age groups, abilities and aptitudes. It is also equipped with Audio Visual Aids.

MEDICAL FACILITIES

There is an arrangement for the medical checkup of the students once a year by highly qualified medical practitioner . There is also provision to attend to the cases of emergency during School hours.

1. Permanent Medical room provided for students *Inschoolduringschoolhours*
2. Permenent Nurse available for any emergency condition for students
3. Every student will get 3 free medical chekups during an acedemic session
